

COMPREHENSIVE HEALTH ASSESSMENT REPORT

1. PATIENT INFORMATION

Name: adit

Age: 19

Gender: M

Height: 180.0 cm

Weight: 65.0 kg

BMI: 20.1

Existing Conditions: no

Assessment Date: 2026-01-23 16:20:18

2. DIABETES RISK ASSESSMENT

Risk Score: 0.6%

Risk Level: Low

Confidence: 95.0%

Assessment Date: 2026-01-23T16:19:28.933738

6. PERSONALIZED INTERVENTION PLAN

Immediate Actions:

- Educate the patient about diabetes risk factors and the importance of maintaining a healthy lifestyle.
- Schedule a follow-up appointment in 6 months to reassess risk factors.

Short Term Goals:

- Increase physical activity to at least 3 hours per week.
- Achieve a fasting glucose level below 90 mg/dL within 6 months.

Lifestyle Changes:

- Incorporate a balanced diet rich in fruits, vegetables, whole grains, and lean proteins.
- Reduce intake of saturated fats and sugars.
- Encourage regular physical activity, such as walking, jogging, or sports.

Monitoring Plan:

- Check fasting glucose levels every 3 months.
- Monitor HbA1c levels annually or as recommended by the healthcare provider.
- Regularly assess blood pressure and lipid levels every 6 months.

Red Flags:

- Symptoms of hyperglycemia (increased thirst, frequent urination, fatigue).
- Significant weight changes (gain or loss).
- Any new cardiovascular symptoms (chest pain, shortness of breath).

Specialist Referrals:

- Refer to a registered dietitian for personalized nutrition counseling.
- Consider referral to an endocrinologist if glucose levels worsen.

7. IMPORTANT NOTES

This report is generated by an AI-powered health assessment system.

It provides informational support based on the data provided.

The accuracy depends on the completeness and accuracy of input data.

Regular health check-ups with healthcare providers are essential.

Monitor any changes in symptoms and seek medical attention when needed.

IMPORTANT DISCLAIMER: This report is for informational purposes only and is not a substitute for professional medical advice, diagnosis, or treatment. Always seek the advice of your physician or other qualified health provider with any questions you may have regarding a medical condition. Never disregard professional medical advice or delay in seeking it because of information in this report.
