

COMPREHENSIVE HEALTH ASSESSMENT REPORT

1. PATIENT INFORMATION

Name: ayan

Age: 19

Gender: M

Height: 175.0 cm

Weight: 60.0 kg

BMI: 19.6

Existing Conditions: no

Assessment Date: 2026-01-23 16:14:39

2. DIABETES RISK ASSESSMENT

Risk Score: 10.3%

Risk Level: Low

Confidence: 79.4%

Assessment Date: 2026-01-23T16:13:55.554148

5. RISK REDUCTION STRATEGIES

1. Physical Activity Hours:

Current: 0.0

Target: 5.0

Risk Reduction: 10.2%

6. PERSONALIZED INTERVENTION PLAN

Immediate Actions:

- Schedule a consultation with a healthcare provider to discuss current health status and risk factors.
- Educate the patient about the importance of physical activity and its impact on diabetes risk.

Short Term Goals:

- Increase physical activity to at least 5 hours per week within the next 3 months.
- Monitor blood pressure and cholesterol levels regularly, aiming for optimal ranges.

Lifestyle Changes:

- Incorporate regular aerobic and strength-training exercises into daily routine.
- Adopt a balanced diet rich in whole grains, fruits, vegetables, and lean proteins while reducing processed foods.

Monitoring Plan:

- Check fasting glucose levels every 3 months.
- Schedule HbA1c testing every 6 months to track long-term glucose control.
- Regularly monitor blood pressure and lipid levels at least once a year.

Red Flags:

- Symptoms of high blood sugar such as increased thirst, frequent urination, fatigue, or blurred vision.
- Significant weight changes or unusual fatigue.

Specialist Referrals:

- Refer to a registered dietitian for personalized nutrition counseling.
- Consider referral to a physical therapist for exercise guidance if needed.

7. IMPORTANT NOTES

This report is generated by an AI-powered health assessment system.

It provides informational support based on the data provided.

The accuracy depends on the completeness and accuracy of input data.

Regular health check-ups with healthcare providers are essential.

Monitor any changes in symptoms and seek medical attention when needed.

IMPORTANT DISCLAIMER: This report is for informational purposes only and is not a substitute for professional medical advice, diagnosis, or treatment. Always seek the advice of your physician or other qualified health provider with any questions you may have regarding a medical condition. Never disregard professional medical advice or delay in seeking it because of information in this report.
